

If you are desperate and need extra credit to make up missing homework, you must do the following for **10** homework credits (**equal to 2 missing assignments**)

1. Read and outline pages 215-221 about Earthquakes and Volcanoes

In your outline, you should not just copy everything over again. Just put down important vocabulary and main ideas.

2. Review questions on pages 222-224: **DO NOT JUST GIVE ME THE ANSWER, rewrite the question as a statement and explain why it's correct.**

Example:

Question #14: The epicenter of the earthquake is located nearest (1)A (2)B (3)C (4)F

Your answer should say: The epicenter of the earthquake is located nearest to F because that is where all the circles intersect.

Do the following questions:

11, 12, 13, 15, 16, 17, 18, 19, 20, 21, 23

You must turn this in by Monday afternoon in order to get credit for it.
